

PHASE 2 WORK SPLIT

proj-init — Developer CLI Tool

Team: Abhi + Suhrit

ABHI	SUHRIT
GitHub Actions CI (test on push, lint)	3 more templates: expense-splitter, next-webapp,
Goreleaser + CD (release on tag)	Post-gen hooks (go mod init, npm install, git init)
Install scripts (bash + PowerShell)	Config file support (~/.proj-init/config.yml)
proj-init update (self-update)	Integration tests (scaffold + build in CI)
--help polish + --version (commit, date, Go version)	

BOTH:

- Coverage 80%+ on all packages
- Code reviews of every PR
