

PHASE 3 WORK SPLIT

proj-init — Developer CLI Tool

Team: Abhi + Suhrit — Final phase: SHIP IT

ABHI	SUHRIT
Homebrew tap & formula (brew install)	Template validation tests (every template compiles)
Scoop bucket (scoop install)	Edge cases: existing dirs, overwrite protection,
AUR package (yay -S)	Defining scaffold a real project, fix bugs found
npm distribution (npx)	Demo GIF for README
v1.0.0 release on all package managers	Marketing: Reddit, Hacker News, Dev.to

BOTH:

- Final docs + README polish
- Bug bash before release
